Pinpoint Cigarette Danger

Labels Must Bear Warning By Next Year

WASHINGTON (AP)—The Federal Trade Commission issued a rule today requiring that by next year all cigarette labels and advertising inform the public "that cigarette smoking is dangerous to health and may cause death from cancer and other diseases."

The commission rule says that it is an unfair or deceptive practice for a manufacturer "to fail to disclose, clearly and prominently, in all advertising and on every pack, box, carton or other container in which cigarettes are sold" that smoking is a health hazard.

The commission ruled that the cigarette package labels should have this warning by Jan. 1, 1965 and that advertising should include the warning by July 1, 1965.

The commission, however, did not state the exact language that cigarette manufacturers would have to use in their advertising and labeling warnings.

In a 153-page statement that accompanied the ruling, the commission said it was leaving the individual cigarette companies and advertisers "free to formulate the required disclosure in any manner that intelligently conveys the sense of the required disclosure in a fully conspicuous fashion."

The announcement of the FTC rule came during the testimony of Chairman Paul Rand Dixon before the House Commerce Committee, which is conducting a broad investigation into smoking and health.

Minuteman Turnover Set For June 30

A complex of 150 operational Minuteman ICBMs, a major component of America's military might, will be turned over to the 351st Strategic Missile Wing at Whiteman Air Force Base on June 30, it was announced Tuesday by Air Force officials.

2nd Lt. Gilbert P. Knier, information staff officer at the base, said the missile wing will accept the 150 Minutemen from the Site Activation Task Force and the Boeing Company, prime contractor, in ceremonies to be held at Whiteman.

Knier said a press conference at 10 a.m. will precede the turnover ceremony and a luncheon. Scheduled for appearance is Gov. John M. Dalton along with other state and military officials.

Final turnover of the vast defense complex culminates three years of preliminary work, construction and checkout of the 16,000 - square - mile project spread over 14 counties in west central Missouri with headquarters at nearby Whiteman Air Force Base.

Activities came to a high pitch here Jan. 16 this year when Boeing dropped the first Minuteman into its hole at a site north of Sedalia near Marshall. Loading of 149 other silos followed and all missiles in the complex are now believed to be in their silos and checked out green.

Moonwatchers Expect Big Show Tonight

MOUNT DESERT, Maine (AP)—Moonwatchers expect an excellent view of a reddish glow in the sky tonight.

It will be the first of two total eclipses of the moon this year.

Many parts of the world will view the phenomenon, but one of the finest vantage points is expected to be on 1,530 - foot Cadillac Mountain on the island of Mount Desert off Maine.

The eclipse begins at 5:48 p.m. EST when the moon enters the earth's penumbra — the almost invisible shadow of the earth. Totality will last from 7:16 p.m. to 8:57 p.m. The moon will leave the penumbra at 11:14 p.m.

The next total lunar eclipse comes Dec. 18.

GOVERNORS MEET FOR INDUSTRIAL TALKS—Illinois Governor Otto Kerner, at left, and Missouri Governor John Dalton listen as Governor George Romney of Michigan talks

during a session on economic and industrial development. The meeting took place in Kansas City. At right is South Dakota Governor Arch Gubrud. (AP Wirephoto)

Work Week Proposal Protested

Congressional Six-Day Week Hit By Republicans

WASHINGTON (AP)—President Johnson's call to Congress to go on a six-day work week until next month's Republican national Convention brought angry protests today from GOP House leaders.

"It just isn't fair play," said Republican Leader Charles A. Falleck of Indiana.

"This looks like an attempt by the President of the United States to sabotage the Republican convention," commented Rep. Melvin R. Laird of Wisconsin, chairman of the GOP Platform Committee.

The committee starts its sessions in San Francisco July 6, one week before the convention opens. Many members of Congress are on the committee. Many others want to air their views before it.

Republicans had counted on the House being in recess the entire week starting July 6, with the Senate holding only token sessions.

The recess outlook has dimmed because of Johnson's reported insistence that Congress enact the civil rights bill and start action on his antipoverty program before the convention.

The President said at a news conference Tuesday he wants Congress to work longer and act on about 30 "desirable" proposals before adjournment.

He prodded the legislators to give his proposals their "full attention" six days a week until the Republican convention and then return to work after the convention.

Barge Blast Thought Part Of a Show

NEW YORK (AP)—A fire-works-laden barge exploded in a fury of rockets, flares and bombs on the Hudson River Tuesday night, killing two men. Thousands of spectators cheered. They thought it was part of the show.

Half a million persons lined the riverbanks in Manhattan and New Jersey for the fireworks spectacle, produced since 1957 by Macy's department store.

"It is because they know we are stronger militarily, morally and economically that World War III will not break out," He said Soviet leaders were realists.

"The easiest way to maneuver ourselves into world war is to create in the Kremlin leaders the impression that we are worried and weak," Nyaradi said.

He said Soviet leaders were realists.

Ann Landers

Answers Your Problems

Dear Ann Landers: I am a man in my 50's who has never married. My widowed sister asked me if I would drive her and her three friends (also widows) to the World's Fair next August. I have a 1962 Chevrolet and am a good driver. In exchange for the chauffeur service the women have agreed to pay all the car expenses plus 25 dollars each.

At first it seemed like a fine idea but now something is bothering me. We will undoubtedly be having most of our meals together. Since I will be the only man present, I will always be handed the check. Please tell me how to handle the situation. These women are supposed to pay for their own meals but I would feel uncomfortable accepting their money right there in the restaurant.—THINKING AHEAD.

Dear Ahead: Have an understanding in advance that one of the ladies will insist on separate checks when the waitress takes your orders. This is infinitely simpler than trying to figure out who ate what. It will also save you the embarrassment of collecting their money at the table.

Dear Ann Landers: This is a difficult letter to write, but I need your advice.

My wife is ill with an incurable blood disease. The doctors say she can't live more than another five or six weeks. Our son is 14 and our daughter 15. We are all trying to be brave and help each other.

My wife has a sister of whom she is very fond. This sister lives out of town and has been here off and on for months. I don't know what we would have done without her.

What I want to know is this: Would it be proper for me to tell my wife's sister (after the funeral, of course) that she is welcome to go through my wife's belongings and take whatever she wishes?

It has occurred to me that it may sadden her and that she might prefer not to have constant reminders. Then again she may want her sister's things. What do you say?—H. K.

Dear H. K.: Before you make such an offer may I suggest you ask your daughter if she would like to have any of her mother's belongings—particularly jewelry.

You could then invite your wife's sister to go through what is left. If she would prefer not

Spencer pointed to the Highway Department's share. "It

represents \$748,849.19 more than was promised when the road and street program was offered to Missouri voters on March 6, 1962. This is \$35,838,836 more than the Department realized in net collections from gasoline taxes in the 1959-1960 and 1960-1961 fiscal years when the State levy on gasoline was 3 cents per gallon."

Spencer said the 5 cent state tax on each gallon of gasoline—approved by voters in the 1962 referendum—"actually has produced nearly \$10 million more . . . than was anticipated."

He added, "The receipts of the Highway Department have constantly risen over the years because of increased consumption of gasoline."

Using figures supplied by the Motor Fuel Tax Division of the State Revenue Department, Spencer said gasoline consumption in 1963 was 3.7 per cent greater in Missouri as compared with 1962. "The 1962 consumption was 2.2 per cent higher than in 1961," Spencer reported. "During the first three months of this year, gasoline consumption has increased 9 per cent over the comparable period in 1963."

In his report, Spencer took occasion to point to the high taxes on gasoline. "Missouri motorists now are paying a 9 cent levy on each gallon of gasoline they purchase—5 cent State and 4 cent Federal. This tax load adds nearly 40 per cent to the retail price of gasoline—nearly four times the 10 per cent levy imposed on luxuries."

Spencer reported the two year street and road program has produced \$5,612,847.52 for 563 cities "which never had a gasoline tax income."

The 106 cities "which saw their discriminatory city gasoline taxes wiped out by the program shared \$18,572,761.69 in the past two years," Spencer said. "This is approximately \$1.4 million more than these cities would have received had they continued their discriminatory city gasoline taxes."

Cities in this category and the gains they have made over their previous assessments on gasoline include: Florissant, \$181,322.73; St. Joseph, \$84,199.65; Bellefontaine Neighbors, \$80,024.64; Webster Groves, \$71,856.73; Jefferson City, \$68,204.75; Gladstone, \$50,969.88; Sedalia, \$49,986.64; Kirkwood, \$48,447.73; Overland, \$48,318.72; Ferguson, \$47,588.51; University City, \$46,228.77; St. Ann, \$44,871.47; Berkeley, \$31,891.81; Mexico, \$29,674.37; Fulton, \$14,218.94; and Crestwood, \$8,953.15.

Spencer emphasized these figures are additional moneys to the constitutional guarantee given to cities that they would receive as much as their own gasoline taxes produced in 1960. For example, Florissant's total allocation in the past 24 months under the sharing plan was \$259,475.37. St. Joseph—on the other side of the State—received \$547,085.97; and Jefferson City—in the center of the State—got \$191,910.83.

About 60 per cent of the cities which had gasoline taxes of their own in 1960 are receiving more money now, Spencer said. "Additional cities are joining this category almost every month as the consumption of gasoline continues to increase."

He added, "Of the 563 cities which had no city gasoline tax in 1960, Joplin has benefited the most with \$264,859.83 in new money provided for its treasury by the gasoline tax sharing plan."

Other cities in this category and the amounts they have received in additional revenues under the new road law include: Cape Girardeau, \$169,604.60; St. Charles, \$144,055.48; Hannibal, \$136,162.27; Poplar Bluff, \$108,274.42; Sikeston, \$98,582.63; Moberly, \$89,537.49; and Kirksville, \$89,217.92.

Turning to allocations for counties, Spencer said \$3,933,047.23 more went into their accounts than was spent under the King Road Law in 1961 and 1962. "This is nearly double the amounts provided the counties from the State's General Revenue

fund in 1960."

Of this amount, the State Highway Department received \$128,748,849.19; the 114 counties shared \$8,046,577.77; and 669 cities were allocated \$24,140,609.21. Costs of collections and refunds during the period totaled \$18,955.00.

"This sharing plan continues to remain the most sound, progressive tax law ever written," Spencer said. "It is working exactly as the people were told with built-in assurances of fair treatment and equitable distribution for everyone."

For example, Florissant's total allocation in the past 24 months under the sharing plan was \$259,475.37. St. Joseph—on the other side of the State—received \$547,085.97; and Jefferson City—in the center of the State—got \$191,910.83.

About 60 per cent of the cities which had gasoline taxes of their own in 1960 are receiving more money now, Spencer said. "Additional cities are joining this category almost every month as the consumption of gasoline continues to increase."

He added, "Of the 563 cities which had no city gasoline tax in 1960, Joplin has benefited the most with \$264,859.83 in new money provided for its treasury by the gasoline tax sharing plan."

Other cities in this category and the amounts they have received in additional revenues under the new road law include: Cape Girardeau, \$169,604.60; St. Charles, \$144,055.48; Hannibal, \$136,162.27; Poplar Bluff, \$108,274.42; Sikeston, \$98,582.63; Moberly, \$89,537.49; and Kirksville, \$89,217.92.

Turning to allocations for counties, Spencer said \$3,933,047.23 more went into their accounts than was spent under the King Road Law in 1961 and 1962. "This is nearly double the amounts provided the counties from the State's General Revenue

fund in 1960."

Of this amount, the State Highway Department received \$128,748,849.19; the 114 counties shared \$8,046,577.77; and 669 cities were allocated \$24,140,609.21. Costs of collections and refunds during the period totaled \$18,955.00.

"This sharing plan continues to remain the most sound, progressive tax law ever written," Spencer said. "It is working exactly as the people were told with built-in assurances of fair treatment and equitable distribution for everyone."

Spencer pointed to the Highway Department's share. "It

represents \$748,849.19 more than was promised when the road and street program was offered to Missouri voters on March 6, 1962. This is \$35,838,836 more than the Department realized in net collections from gasoline taxes in the 1959-1960 and 1960-1961 fiscal years when the State levy on gasoline was 3 cents per gallon."

Spencer said the 5 cent state tax on each gallon of gasoline—approved by voters in the 1962 referendum—"actually has produced nearly \$10 million more . . . than was anticipated."

He added, "The receipts of the Highway Department have constantly risen over the years because of increased consumption of gasoline."

Using figures supplied by the Motor Fuel Tax Division of the State Revenue Department, Spencer said gasoline consumption in 1963 was 3.7 per cent greater in Missouri as compared with 1962. "The 1962 consumption was 2.2 per cent higher than in 1961," Spencer reported. "During the first three months of this year, gasoline consumption has increased 9 per cent over the comparable period in 1963."

In his report, Spencer took occasion to point to the high taxes on gasoline. "Missouri motorists now are paying a 9 cent levy on each gallon of gasoline they purchase—5 cent State and 4 cent Federal. This tax load adds nearly 40 per cent to the retail price of gasoline—nearly four times the 10 per cent levy imposed on luxuries."

The 106 cities "which saw their discriminatory city gasoline taxes wiped out by the program shared \$18,572,761.69 in the past two years," Spencer said. "This is approximately \$1.4 million more than these cities would have received had they continued their discriminatory city gasoline taxes."

Cities in this category and the gains they have made over their previous assessments on gasoline include: Florissant, \$181,322.73; St. Joseph, \$84,199.65; Bellefontaine Neighbors, \$80,024.64; Webster Groves, \$71,856.73; Jefferson City, \$68,204.75; Gladstone, \$50,969.88; Sedalia, \$49,986.64; Kirkwood, \$48,447.73; Overland, \$48,318.72; Ferguson, \$47,588.51; University City,

Sees Midwest On Economic Takeoff Pad

KANSAS CITY (AP) — Two days of discussion among area governors on industrial development of their states ended on an optimistic note Tuesday.

Gov. Otto Kerner of Illinois put it this way:

"I believe that the economic trend with which we are grappling here has been reversed, and that the Midwest is in the stage of economic takeoff."

Taking exception with other conference speakers who suggested the Midlands were lagging behind the east and west coasts economically, Kerner added:

"The trend in the future will not be toward the coasts. It will be back from the coasts. We have water, air, tremendous capital investments in the plants and processes that have the unlimited market of our nation and the world. We have the diversified labor and skilled forces to support them."

Comments from other governors present Tuesday were more conservatively optimistic.

Gov. Frank B. Morrison of Nebraska suggested the states should develop constructive programs of their own rather than rely on federal help. He proposed they plan together as a midwestern bloc.

Gov. Archie Gubrud of South Dakota said home-grown industries have proved the soundest source of economic development. "It's what we do with what we have that counts in the long run," he remarked.

Gov. John M. Dalton of Missouri, who summoned the conference, said growing urban problems call for a better breed of metropolitan representatives in state legislatures.

Double Fatality Caps Off Chain Of Misfortune

COLUMBIA, Mo. (AP) — A woman and her son were killed Tuesday in a car-truck collision that also injured five other persons six miles southwest of Columbia.

Six persons in the car were returning home from the funeral of a drowning victim.

The dead were Mrs. Wilbert Earl Proctor Sr., about 53, and Herman Proctor, 15.

Injured in the car were a daughter, Joyce Proctor, 17; a granddaughter, Sheila Proctor, 12; Mrs. Hazel Baker, 38, the driver, and her daughter, Mrs. Jesse Stone. The Proctors and Mrs. Stone live on Route 7, Columbia, and Mrs. Baker in Ste. Genevieve.

The truck driver, Marion Aubrey Coates, lives near Columbia.

The crash occurred at an unmarked rural intersection.

The group in the car had attended the funeral of 6-year-old Clayton Andrew Morris, who drowned Sunday in the family car that rolled down an incline into an abandoned mine pit.

The boy's father, Raymond Morris, was helping search for the body of Robert J. Mendenhall, 22, who had drowned in the pit earlier.

His only son died childless and therefore Napoleon Bonaparte had only one lineal descendant.

Seeking Injunction Against Train Law

SEATTLE (AP) — Five railroads have filed suit in U.S. District Court here asking a permanent injunction against enforcement of a 1911 Washington state law regulating the size of train crews.

The act, known as the "full crew law," specifies the number of crew members on all trains over a certain size operating outside of railroad yards.

The suit contends the law conflicts with the Nov. 26 decision of a congressional arbitration board that 90 per cent of firemen's jobs can be eliminated.

The railroads estimated a saving of \$4 million a year in Washington if they could reduce the size of crews.

The suit was brought by the Milwaukee Road, the Great Northern, Northern Pacific, Union Pacific and the Spokane, Portland & Seattle Railway.

Pet Dalmatian Custody Issue In Divorce Suit

LEXINGTON, Ky. (AP) — Rorschach, an 8-year-old Dalmatian, will spend the summer alternating between a sumptuous home with a splendid picture window and a leading thoroughbred farm.

His master and mistress, Thomas E. and Bessie Hager Masters, are being divorced and each wants sole possession of the animal.

Masters says he has a concrete block doghouse with a picture window for Rorschach at his home at nearby Nicholasville. Mrs. Masters says she would keep the dog at Maine Chance Farm near Lexington.

Circuit Judge Nolan Carter ruled Tuesday they would alternate possession monthly, with visitation privileges, until the divorce is final.

After that, the judge said, he would have to figure out who gets the dog — or eventually just have to cut it in half."

Negro an Alderman

PETERSBURG, Va. (AP) — Petersburg voters have elected a Negro, John H. Owens, to the City Council for the first time in nearly 100 years.

Owens received 1,724 votes Tuesday for one of the three seats open on the council in a runoff election.

Others elected were Lester I. Bowman, with 2,179, and Vice Mayor Arlie G. Andrews, with 1,933.

Cuban Coast Mined

MIAMI, Fla. (AP) — The Exile News Service claimed today that Cuba's northwest coast has been mined to prevent anti-Castro landings and to keep Cubans from fleeing the country.

The service, quoting underground sources, said mines have been placed 600 feet apart along the Pinar del Rio Province coast that faces Florida.

New Racial Approach

Hope To Prevent Violence By New Laws, Techniques

EDITOR'S NOTE — Hit by violent racial outbreaks last summer, Mississippi officials have developed new techniques to meet a summer invasion of nearly 1,000 civil rights workers now under way. Here's a look at the changes, which the state hopes will avoid violence. Second of two parts.

By DUDLEY LEHEW
JACKSON, Miss. (AP)—While white citizens wait nervously for an increase in civil rights activity this summer, Mississippi officials have armed themselves with new laws and techniques aimed at averting violence.

Up until a few months ago, demonstrators usually were arrested the minute they appeared on the streets. In Jackson alone last summer more than 1,000 arrests were made.

But a new approach appeared this winter, inaugurated in Hattiesburg — let the demonstrators have police freedom of movement.

The lack of attention, police theorized, would wear thin the ranks of the participants.

In Hattiesburg, Canton, Greenwood and Clarksdale this plan was followed. Now only a few persons are still demonstrating in any form.

The state legislature, however, has added new laws, for use if needed.

And since it was called back into special session June 23 to deal with state-aided private schools, more laws could be added if trouble appears likely.

The biggest legal change, sought by Gov. Paul Johnson, added 200 men to the Mississippi Highway Patrol and gave the former traffic control agency police powers to be used only by proclamation in the event of racial disorders.

Another new statute, now facing a court test, prohibits picketing near entrances to government buildings. Several demonstrators were arrested under this law in Hattiesburg during a recent "Freedom Day" mass voter registration drive.

Johnson signed a law permit-

High Adventure by Sedalian Teaching In Hoonah, Alaska

TLINGIT INDIANS — At left as a picture of the Tlingit Indian children in the village where Rita taught. After all, if they were going to have their picture taken big sister thought she had better do something about her brother's hair which didn't exactly suit her. At

the right is a group of school children having a tug of war which is something Rita taught them. In the background may be seen the many fishing boats for fishing is the island's main industry.

COLORFUL costumes of the Tlingit Indians worn at their ceremonials are shown in these two pictures. The costumes are gay with reds, greens and shades of blue and browns.

They have various celebrations when the elaborate costumes are worn, one being the fall celebration, Potlatches, at which ceremonial dances are staged.

By Hazel Lang
It was the morning of the first day of June that Rita Napier drove up in front of the home of her parents, Mr. and Mrs. Delmar Napier, 211 East Saline, after two years of adventure and experiences in Alaska where she taught school at Hoonah which is on an island in a chain along the narrow southeast coast of Alaska 35 miles or so from Juneau.

History Teacher
Going there in September 1962 as a teacher of history, Rita saw the desperate need for teachers there, so she took over other subjects, too, English, and this course she figured out herself; physical education, which was in her line, and home economics, which wasn't. Not only was it certainly not her first love, but she had no equipment, no refrigerators, no stoves and the only sewing machine they had broke down. So she taught hand sewing, home decorating, and such things as would improve the sanitation conditions which were not too good.

But never-the-less Rita learned to love the Tlingit Indians which made up well over 90 per cent of the village population. It was a real challenge, and as she taught, she learned, but she can sing songs better in the language than speak it. She does speak it a bit, though.

Fishing Is Main Job
Along the route home Rita pitched her tent at night, and Seen was no help at all in pitching a tent, she found, crawled into her sleeping bag and hoped that Seen was vicious enough to keep the wild animals away, which she knew he was not. Every noise you hear in the stillness of the night along the road you know is an animal and when, at one place, a wolf howled, her dog got scared. After all, though, that stopping along the side of the road to camp near a wilderness was her idea—not his—and it was her idea to name him Seen—for strong—not his.

Next time, said Rita, she is going to take a coal oil stove along, this business of building a camp fire to cook with is pretty hard, after a long day of driving. Some of the places she

came through, the snow was six foot high on the roadsides. It was after she got her degree from the American College in Washington, D. C., that Rita started on her adventure as a teacher in Alaska in hopes of gathering material, and money, too, to continue her studies at the American University working for her Masters.

Low Morals Group
Those between the ages of 25 and 45 or 50, mostly want to live off of welfare, have low morals and drink up the welfare money. This started in about 1944 when the houses of the village burned down, she said, and government housing was put up for them. They have no basic moral structure.

sticks its head up some so you can see it, then you can see where it is going after it goes down. You watch from a big rock, then you get down and run along the bank to another big rock and then another, watching until he comes up again—then you shoot him. "I felt kinda silly running from rock to rock," said Rita, but she added, the man got three seals that day, which brought him about \$45 a piece, and that isn't bad.

The older people, and they are in their fifties and sixties, because they do not live to be very old there, have a way of life, have high moral standards, believe in making their own way, and are very fine. They like to prepare food and love to sit and sing.

S-C Class Of 1928 In Reunion

The class of 1928 Smith-Cotton High School held its 36th year reunion Saturday.

The day began at 10 a.m. with an informal get acquainted period at the High School Cafeteria, which lasted until 4 p.m. The hospitality committee was in charge, serving refreshments throughout the day to the members, their families and guests.

A guided tour of the high school was conducted by Miss Jaunita Berry from 2 to 3 p.m.

At 6:30 p.m. a banquet was served buffet style in the Ambassador Room of the Bothwell Hotel. The invocation was given by Lloyd Kennon.

Paul Zander, master of ceremonies for the evening, welcomed the guests and introduced the program. Dinner music was presented by Bill Long.

Roll call was by Evelyn Bradley Rabourn assisted by the secretary. Miss Jaunita Berry introduced the faculty followed by greetings from the faculty. The class prophecy was then given by Bill Burton.

A memorial service in memory of the 24 deceased members of the class was conducted by Lloyd Kennon assisted by Mrs. Jack Herndon, soloist, and Mrs. Sid Kennon as accompanist.

Group singing was led by Frances Meyers with Hazel Chambers Brockmeier at the piano.

Awards were presented by Paul Zander to John E. Staley for the largest family; Flackie Wilder, most recently married; Herbert Ferguson for youngest child; Aetna Raefferen Wolfe, youngest grandchild; Wallace Bell, oldest grandchild; and to Marcelle Ellison Patrick for work done on the reunion.

Special guests were Mr. and Mrs. Paul A. Griggs of Huntsville, former principal of Smith-Cotton, Miss Edna Snell, Mrs. Maurice Curtis, Mr. and Mrs. Alveus Bradley, Mr. and Mrs. Pinkney Miller, Mr. and Mrs. H. C. Johnson, Mrs. Clyde Heynen and Miss Jaunita Berry.

Arrangements for the reunion were made by the reunion committee: chairman, Flackie Wilder, secretary, Marcelle Ellison Patrick, treasurer, Lawrence Duly, program, Evelyn Bradley Rabourn, hospitality, V. E. I. a Townsend Curtis, awards, Mary L. Weinrich Heckart and Mildred Etheridge Momborg, decorations, Opal Streby Williams, reception and registration, Merrill French Carson, Rosadene

AN ENGAGEMENT IN THE CHURCHILL FAMILY—Winston Churchill, 23, grandson of the former British Prime Minister, has announced his engagement to Minnie D'Erlanger. Photo was taken in New York City, where Churchill's mother, Mrs. Leiland Howard, lives.

Foiled Bank Robber Identified by FBI

OMAHA (AP)—John B. Capehart, 34, has been identified by the FBI from fingerprints as the bandit of a bank near Omaha who shot himself dead when cornered by police after the holdup last Friday.

The FBI said that Kansas relatives also identified the body as that of Capehart.

The suburban Douglas County bank was held up and robbed of \$1,700. A witness identified Capehart as the bandit.

To Seek Bids For New Post Office

WASHINGTON (AP)—An invitation for bids to construct a post office and federal courthouse at Hannibal, Mo., will be asked June 25 by the General Services Administration.

The project is estimated at \$1.6 million, and the bids are to be opened July 28.

It also was reported that the REA has approved a \$280,000 loan to the Kingdom Telephone Co. of Auxvasse, Mo., for improvements.

Haeslip Shelby and Ruth Haeslip Thomas.

A breakfast was served Sunday at 10 a.m. at the Bothwell Hotel.

It was voted to have the next reunion in June of 1968.

Washington Capsules

WASHINGTON (AP)—In the news from Washington:

WASHINGTON (AP) — The Senate gave swift authorization Monday to a \$5,246,293,250 measure for the nation's space program.

The measure would allow \$52 million more than the House voted for the year beginning July 1. But for the first time in the seven-year life of the National Aeronautics and Space Administration the authorization was less than the previous year's budget, which was \$5,350,820,400.

The bill now goes back to the House. Actual funds to finance the program will come through a separate appropriations measure.

WASHINGTON (AP) — The U.S. population has climbed an estimated 12 million since the 1960 census.

The population clock in the Census Bureau working on birth death and immigration rates, reached 192 million at 8:35 a.m. Monday.

The decennial count in April 1960 was 180,007,000.

WASHINGTON (AP) — President Johnson declared Monday that the GI Bill of Rights signed 20 years ago by President

Freight Car Shortage Blamed On Railroads

WASHINGTON (AP)—A critical shortage of freight cars in the nation is blamed by the Interstate Commerce Commission on the railroads.

"The railroads have consistently assured Congress that they would conduct studies of the freight car situation but have apparently failed to implement such studies," a report of the commission stated Monday.

The measure would allow \$52 million more than the House voted for the year beginning July 1. But for the first time in the seven-year life of the National Aeronautics and Space Administration the authorization was less than the previous year's budget, which was \$5,350,820,400.

Highest U.S. automobile road is that which winds up to the 14,260-foot summit of Mount Evans in Colorado.

TV Writer Keeps Job In Advertising

ALBANY, N.Y. (AP)—Harlan Weaver will tell you speed pays. The speedometer on Weaver's automobile was stuck at 80. A garageman said it would cost \$20 to repair.

Monday Weaver was caught in a radar trap and fined \$10.

But the radar apparently corrected an electrical fault, and the speedometer works perfectly now.

Weaver figures he saved \$10.

OBITUARIES

Funeral Services

Elmer J. Cordes
(Sedalia)

Elmer J. Cordes, 51, Route 1, died at the home of his mother in Mora, Monday night.

He was born in Mora, May 4, 1913, son of the late Charles Cordes and Mrs. Mary Renken Cordes.

Surviving are his wife, Myrtle, of the home; two children, Charles Edward and Shirley Elaine Cordes, both of the home; his mother, Mrs. Mary Cordes, Mora; a sister, Miss Nora Cordes, Mora.

He was preceded in death by his father and a sister.

Funeral services will be held at 2 p.m. Thursday at the Holy Cross Lutheran Church, Lake Creek. The Rev. L. R. Krout will officiate.

A short prayer service will be held at 1:30 p.m. Thursday at the Fox Funeral Home, Cole Camp.

Pallbearers will be Oral Schnakenberg, Norman Schnakenberg, Harry Heimsoth, Wilbert Hoben, Allen Oelrichs and Walter Heimsoth.

Burial will be in the Cole Camp Memorial Cemetery.

The body is at the Fox Funeral Home, Cole Camp.

William Hodges
(Versailles)

William Hodges, Versailles, died at a Fulton hospital, Saturday. He had made his home in Versailles with Mr. and Mrs. Charles Daniels for the past eight years. He was a retired carpenter.

He was born, Feb. 1, 1883, in Tracy, Mo., son of the late James F. and Mary Wilson Hodges. He was married to Dora Lee DeWitt, who survives.

Also surviving are two daughters, Mrs. Anna Mary Gagliardi, Independence; and Mrs. Naomi Duet, Independence; three sons, Armond Hodges, Independence; Curtis Hodges, Kansas City; and Winfred Hodges, Raytown.

Graveside services were held at 1 p.m. Wednesday at the Versailles Cemetery with the Rev. Charles Sexton officiating. Arrangements were under the direction of the Kidwell Funeral Home, Versailles.

Mrs. Leta Cornine
(Clover Fort, Ky.)

Mrs. Leta Melinda Cornine, 76, Clover Fort, Ky., died at her home Monday.

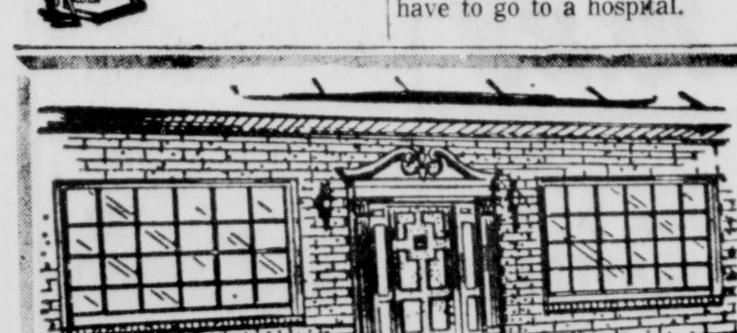

The body is to be brought to Sedalia by train Friday afternoon and will be taken to Hays-Painter Chapel in Pilot Grove.

Surviving are five daughters, Mrs. Leota Butler, West View, Ky.; Mrs. Ella Mae Johnson, and Mrs. Velma Davis, Albuquerque, N. M.; Mrs. Helen Clark, Saint Croix, Ind., and Mrs. Josephine Robinson, Louisville, Ky.; one son, Raymond Lewis Cornine, Indianapolis, Ind.; one sister, Mrs. Zola Bales, Texaco, Mo.; 17 grandchildren and 11 great grandchildren; a brother-in-law, Johnny Cornine Sedalia.

Funeral services will be at 2 p.m. Saturday at Berear Church in Postal community, near Pilot Grove. The Rev. Alfred Scott will officiate. Burial will be in Berear Church Cemetery, beside the deceased's husband, who died in 1949.

About Town

Mr. and Mrs. Robert Jackson, Napa, Calif., arrived Sunday to visit Mrs. Jackson's parents, Mr. and Mrs. Rival Rhoads, Route 2, Hughesville, and other relatives.

Mrs. Kelly Jackson

Funeral services were held at 2 p.m. Wednesday at the Reser Funeral Chapel in Warsaw, for Rachael Ann Jackson, 50, Fairfield, wife of Kelly Jackson, who died Sunday afternoon. The Rev. Claude Mustain, pastor of Warsaw Baptist Church, officiated.

Burial was in Fristoe Cemetery.

William A. McFarland

Funeral services for William Alexander McFarland, 95, Windsor, who died Saturday evening, were held at 2 p.m. Wednesday at the Gouge Funeral Home in Windsor. The Rev. William R. Butts officiated.

Burial was in New Church Cemetery in Johnson County.

World News
Glimpses

TOKYO (AP) — Prime Minister Hayato Ikeda today won the first non-confidence vote brought against him since he took office in July 1960.

By a vote of 270-164, Ikeda's Liberal-Democratic party defeated the censure motion introduced by the Socialists and Communists.

DAMASCUS, Syria (AP) — Oil-rich Kuwait is lending Algeria \$21 million for construction of a 500-mile oil pipeline from the Sahara to the Mediterranean, Kuwait radio announced.

TOKYO (AP) — A Japanese port welcomed a ship built by the Chinese Communists for the first time today.

The 4,600-ton freighter Liaoyuan arrived in Tokyo with 5,000 tons of corn shipped from Tsingtao under a private trade agreement.

BONN, Germany (AP) — Communist China and West Germany are exchanging newsmen. A government spokesman announced that the two governments concluded an agreement Monday provided for the New China News Agency to open an office in Bonn and for DPA, the West Germany news agency, to open an office in Peking.

Rights Leader,
Officers Don't
Jive on Reports

JACKSON, Miss. (AP) — A spokesman for a civil rights organization said early today two civil rights volunteer workers had been arrested at Moss Point in southern Mississippi.

The spokesman, Bob Byers of the Council of Federated Organizations, said sheriff's deputies at Moss Point refused to give the charges over the telephone.

The Jackson County sheriff's office and city police at Moss Point and nearby Pascagoula said they had no knowledge of any arrests.

Byers said the pair, identified as Ronald Ridenour, 24, of Venice, Calif., and Howard Kirchenbaum, of Long Beach, L.I., N.Y., had been arrested by sheriff's deputies.

Byers, whose organization coordinates activities of all major civil rights groups in the state, said three attorneys were route to Moss Point to represent the pair.

Ambulance Drivers
Squabble Over Man

KANSAS CITY (AP) — Two different ambulance companies were called after a man collapsed in a suburban Mission, Kan., store Tuesday.

Mission police said two ambulances arrived simultaneously and each driver grabbed an arm of the patient while they argued about who was going to haul him away.

Then a physician arrived. He told the drivers that neither was needed, because the man didn't have to go to a hospital.

DALETON CITY (AP) — Gov. John M. Dalton said today he would release enough money to permit Warden E. V. Nash to hire additional guards at the State Penitentiary.

Dalton said he would advise Nash of his decision in a letter today. The money will represent an advance of funds which will have to be replaced by the 1965 legislature in a deficit appropriation.

Nash has said that since some

guards were transferred to the new Medium Security Prison at Moberly he needs about 25 more men at the main prison.

Catching up on many topics as he held his first formal news conference in weeks, the governor also said he does not plan to make public a report of the Highway Patrol's investigation of State Park Department operations under Joseph Jaeger, the former park director.

Jaeger quit last December to run for the Democratic nomination for secretary of state.

Results of the patrol's investigation have been turned over to James T. Riley, the Cole County prosecuting attorney, but Riley said he would need more information before deciding whether to file any charges.

Dalton told newsmen today so far as his office is concerned the investigation has been completed.

Rep. John M. Fitzgerald, a Republican representative who is seeking re-election, called on Dalton Tuesday to release the full details of the report.

So far the governor has declared six counties disaster areas to make them eligible for federal flood aid. He said the Office of Emergency Planning has approved the counties for assistance.

National League Roundup

Ray Culp Regains Starting Position on Phillie Staff

By DICK COUCH
Associated Press Sports Writer

Ray Culp has pitched his way back into the Philadelphia Phillies' starting rotation. All it took was a near replica of teammate Jim Bunning's perfect game.

A first-inning base on balls and Len Gabrielson's sixth-inning single came between Culp and perfection, attained two days earlier by Bunning, as the 22-old right-hander blanked Chicago 9-0 in the second game of a doubleheader Tuesday night.

No other Cub reached base against Culp, whose early season troubles cost him a front-line job on Gene Mauch's leading pitching staff.

Mauch, thoroughly impressed after Culp's effort, announced that the National League-leading Phils will go with five starters henceforth.

"With Bunning, (Dennis) Bennett, (Art) Mahaffey and (Chris) Short working so well," the manager said, "we just haven't been able to give Ray enough work. The doubleheaders enabled us to use him more. Now he's pitching like he did last year."

Culp, a \$100,000 bonus baby five years ago, won 14 games in 1963, his rookie season, and led Philadelphia pitchers with 176 strikeouts. He reported with a sore arm this spring, dropped five of six decisions and found himself in the bullpen.

But three victories—including the one-hitter—and two complete games in his last three appearances have vaulted the young Texan back into the Phils' pennant plan.

The second-game victory gave the Phils a split of the twi-nighter. Chicago took the opener 2-0 on Dick Ellsworth's five-hitter.

Second-place San Francisco divided with Cincinnati, winning 4-0 before bowing 5-4 in 11 innings. Pittsburgh defeated New York 5-1; Milwaukee beat Los Angeles 5-2 and St. Louis nipped Houston 5-4.

Culp said after the game he relied mainly on his fast ball against the Cub hitters.

"I had arm trouble late last year and early this season because I threw too much breaking stuff," he recalled.

He said Gabrielson's hit, a golfer shot off a low fast ball, surprised him. "I jammed him down and in, and he sliced it to right."

Culp wasn't ecstatic about his performance. "We're on top and I'm not a winning pitcher. If I was 10-5 with this club I'd have something to be happy about."

Phillie hitters were beaming after their 17-hit supporting role in the second-game victory. Wes Covington homered, Richie Allen cracked three doubles and John Hennstein had four hits, including a pair of doubles.

The opener was another story. Ellsworth breezed to his ninth victory in 15 decisions. Ernie Banks singled home one run and rookie Billy Ott doubled in the other.

Marty Keough's lead-off homer in the 11th inning earned Cincinnati a split with San Fran-

cisco and kept the Giants 1 1/2 games behind Philadelphia. Jim Hart's eighth inning homer, his second of the game, had pulled the Giants even.

Juan Marichal scattered seven singles in the opener and ran his record to 9-3. The Giants scored all their runs in the third inning. Duke Snider and Jose Pagan singling home two each. Dick Schofield drove in four runs, three on a homer, and Vern Law pitched his fourth straight victory as the Pirates blanked the Mets their 11th loss in 12 games.

Milwaukee snapped a seven-game losing string, rallying for three runs in the seventh on doubles by Hank Aaron and Felipe Alou and singles by Lee Maye

Mays Misses Birth By Single Vote

NEW YORK (AP) — Will the culprit—beg pardon, ball player—who did not vote for Willie Mays please stand up?

Or is he too busy cutting out paper dolls? Maybe he has suddenly gone blind. Or could it be he just can't spell M-A-Y-S.

How any major league ball player, sound of mind, devoid of prejudice, either over or under 21, could pick any center fielder in the United States—or in the world for that matter—over Mays is almost impossible to imagine.

Yet one did just that in the All-Star balloting conducted by Commissioner Ford Frick's office and announced Tuesday.

Actually, 30 players did not vote for Mays as the National League starting center fielder but 29 had a legitimate excuse. They were Willie's teammates and the rule says you cannot vote for a member of your team.

But what excuse did the other non-Mays voter have?

This guy voted for Curt Flood of the St. Louis Cardinals.

Now Flood is a capable center fielder but it's useless to even try to compare him with Mays. Or compare any other center fielder with Mays.

Willie is simply incomparable. He's a league all to himself. Whenever rival players or managers begin comparing stars, as they often do, they invariably place Mays in a category of his own. Then they begin evaluating the others.

Willie received 240 out of a possible 241 votes.

It would serve this lonesome guy right if the other 240 voted to have him appear at home plate before the All-Star game, July 7, and say out loud, a thousand times:

"Willie Mays. Willie Mays. Willie Mays."

Santa Claus 4-5 Favorite in Irish

LONDON (AP) — British bookmakers have established Santa Claus as a 4-5 favorite for Saturday's Irish Sweepstakes Derby while challengers to the speedy colt continue to dwindle.

Two American colts were among several withdrawn Tuesday for the 1 1/2-mile event at the Curragh race track, first test for Santa Claus since his victory in the Epsom Derby. It appears the starting field would number only about 15 horses.

Baldric II and Transpose, owned by Mrs. Howell E. Jackson of the Bull Run Stud in Virginia, were the American entries pulled out. Baldric's poor showing in the Epsom Derby, also at 1 1/2 miles, after a victory in the English 2,000 Guineas Handicap, prompted his withdrawal. Transpose had not been regarded as a likely starter.

Wrestling is expected to be resumed in Sedalia in early September, according to promoter Gust Karras.

Tigers Take Nightcap

A's Divide With Detroit; Cards Squeak By Houston

By THE ASSOCIATED PRESS until the seventh when the Tigers got their only run on two singles and an infield out.

Wes Stock came on to get the last out of the inning and kept the door closed through the eighth. John Wyatt wrapped it up by retiring the side in order in the ninth. The loss was charged to Joe Sparma in his first major league start.

The A's won the first game in the fifth inning on Rocky Colavito's bases loaded single. The victory went to John O'Donoghue, his fourth against the same number of losses.

O'Donoghue allowed only 7 hits and pitched shutout ball

Don Larsen was charged with the loss and Ron Taylor got the victory, both in relief appearances.

Ray Sadecki is slated to start for the Cards tonight against the Colts Don Nottebart, and in Kansas City, the A's will send Diego Segui against the Tigers Ed Rakow.

Local Divers Win Places In Contest

Three members of the Sedalia Divers Club attended a diving meet this past weekend, June 20-21, at Lake Norfork in Arkansas. The spearfishing and triathlon event was a Midwest Diving Council, Inc., sanctioned dive sponsored by the Aqua Hunters of Wichita, Kan.

The Cards scored three times in the first inning on a single by Bill White and Ken Boyer's two-run homer, added a single run on Tim McCarver's sacrifice fly with two men on base in the fourth, and won it in the seventh on two throwing errors by Staub.

Dick McAuliffe's grand slam homer was the big blow in the eighth and Al Kaline's two-run single highlighted Tiger scoring in the second.

Micky Lolich limited the A's to 7-hits in winning his seventh against five defeats. Dan Pfister was the loser.

The Cards scored three times in the first inning on a single by Bill White and Ken Boyer's two-run homer, added a single run on Tim McCarver's sacrifice fly with two men on base in the fourth, and won it in the seventh on two throwing errors by Staub.

The Cards scored three times in the first inning on a single by Bill White and Ken Boyer's two-run homer, added a single run on Tim McCarver's sacrifice fly with two men on base in the fourth, and won it in the seventh on two throwing errors by Staub.

Instead of cooking up a skin game with some of the other competitors, Nicklaus went out alone with only his caddy tagging along. He kept no score, but he had a score card full of notes when he came in.

Also missing the practice

jaunt were Ken Venturi, last week's surprise winner of the National Open, and classy Dow Finsterwald. The temperature was in the 90s, and tornado warnings were flying to discourage much of the talented field of 149 professionals and 10 amateurs.

Fifty of the pros had a picnic today as each teamed with three amateurs in a best-ball handicap round with \$10,000 going to the play-for-pay group. The professionals paid no entry fee, but each of the 150 amateurs tossed \$200 into the pot.

Paterson also received the booby trophy for spearing the smallest fish. Gerald Hancock, Harvey Patterson, and Donnie Kabler received the second place team trophies for spearing the second most fish per team.

Approximately 30 divers from Missouri, Kansas and Oklahoma entered the spearfishing event which lasted five hours.

Diving Instruction

The Sedalia Divers Club is holding diving instruction every Thursday night beginning at 7 p.m. at the club room, 1020 South Harrison. Twenty-four hours of classroom and pool instruction are necessary to complete the course.

Make-up classes will be held only at the convenience of the instructors.

Ankle, Default Take Two Out of Tourney

CHATTANOOGA, Tenn. (AP) — A sprained ankle and a derailed match knocked two favorites from competition in the tennis tournament Tuesday.

Todd Ballinger, top-seeded in the junior division, sprained his ankle in the second set of his third round match with Tico Carrero of Puerto Rico, and lost 8-6, 6-2. Ballinger, of Leawood, Kan., had to default his men's singles opener.

John Lesch of Los Angeles, second seeded in the men's division, failed to show up for his first-round match.

Communists Jam Zanzibar; President Seems Unversed

ZANZIBAR (AP)—The Soviet Union, Communist China and East Germany are pumping men, money and machines into Zanzibar.

President Julius Nyerere of the new Republican of Tanganyika and Zanzibar is trying to assert his authority in the island 25 miles off the East African mainland.

Zanzibar's own president, Abd Karume, 59, a Moslem, probably has no deep love of communism. But the island leader, a seaman for 22 years, seems unversed in the ways of Communist infiltration.

Karume is the idol of the Zanzibar Africans and the island's most powerful single personality.

Asked this month about Communists in positions of authority in Zanzibar, he replied: "What are one or two men? I have the power and I have my own eyes and ears."

Karume cites generous Communist aid as an indication of the bloc's friendship and says anyone who helps Zanzibar is welcome.

Some 150 technicians and experts from the Communist bloc are believed to be working in Zanzibar.

British civil servants have been replaced. East Germans have taken over the Finance Ministry and are helping run the radio station, Information Ministry, schools and medical services. They are doing preliminary work on projects to rehouse thousands of Africans huddled in squalid shanties outside Zanzibar town.

The Red Chinese are firmly ensconced in the agriculture department and are planning rice growing and other farm schemes to reduce the island's dependence on cloves.

China has granted Zanzibar an interest-free loan of \$14 million, much of which will be in the form of equipment and services.

Soviet technicians have taken over running of the harbor and providing officers for Zanzibar's two coastal passenger ships. Soviet instructors are training about 400 recruits in the people's liberation army in the use of their new Soviet equipment.

Some of this was displayed at the big May Day parade, "but you didn't see all of it," says Maj. Ali Mahfoud, the army's Havana indoctrinated second in command.

The army largely is officered by Zanzibaris of Arab origin and small groups have been sent behind the Iron Curtain for further training. Other Zanzibari troops reportedly are being sent to Indonesia.

Order Poelker Name Removed From Lists

ST. LOUIS (AP)—U.S. District Judge John K. Regan ordered the name of former St. Louis County Circuit Judge Virgil A. Poelker removed Monday from the roll of attorneys allowed to practice in U.S. courts.

U. S. Attorney Richard O. Fitzgibbons Jr. filed a petition last month seeking removal of Poelker's name.

Poelker resigned as circuit judge and surrendered his state license to practice law in March 1963, just before an impeachment proceeding was to begin in the Missouri Supreme Court.

Stockpile Military Gear In Thailand

BANGKOK, Thailand (AP)—About 50 soldiers of the U.S. 25th Division were reliably reported today to have arrived in Thailand to help stockpile military equipment due here this week.

Military informants said another 60 to 70 men were expected to follow for the operation, described as a buildup of American strength in this strategic Southeast Asian country.

Five U. S. ships carrying trucks, armored personnel carriers, signal equipment, ammunition and construction gear are en route to Thailand. The first vessel is scheduled to dock in Bangkok tonight.

EDITORIALS

Our Attitudes Are Showing

To deny an accusation is much less painful than to agree with it and thereby be put to the strain of accepting its unpleasant validity.

We have in mind the remarks made by Dr. Charles M. Kimball, president of Mid-West Research Institute made at the Mid-West Governors' conference in Kansas City to the effect that the 6-state area of Missouri, Kansas, Iowa, Nebraska, Oklahoma and Arkansas is 15 years behind both coasts in its concept of economic development.

Barriers facing the Middle West, Dr. Kimball remarked, are blocking the utilization of its tremendous potential. These barriers are neither technical nor financial, but attitudinal. There is resistance to change, which includes outdated management practices, insularity, lack of enthusiasm, and even a reluctance to understand and to use new ideas and practices.

Thus the Middle West has the assets and resources to compete economically, but the area is grossly underutilized, especially in resources which are human.

As Dr. Kimball put it, "It is in the utilization of human talent and brainpower that we are lagging. If the states in the Mid-West will recognize the knowledge gap and accept the economic value of brainpower, we can begin an unconventional approach to economic development."

The difficulty seems to be our mental attitude is not properly adjusted to economic progression in comparison with other segments of the country. In other words we continue to nurture a feeling of out-

Washington Merry-Go-Round

Truman Could Mediate Cyprus Dispute

By DREW PEARSON

WASHINGTON—There is one man who might be able to help President Johnson in his extremely difficult problem of preventing war between Greece and Turkey over Cyprus. He is Harry S. Truman.

Truman is the man who in early 1948 proclaimed the Truman doctrine to save Greece and Turkey.

At that time the United States was still quite isolationist-minded. NATO had not even been dreamed of. The Marshall Plan had not been formulated. Greece was hungry, war-torn and almost on the brink of chaos. Turkey, though managing to stay out of the war for the most part, was also in danger.

It controlled the gateway to the Black Sea, long sought by the czars of Russia, then coveted by the rulers of the Kremlin.

Unquestionably Truman's prompt and courageous action saved both countries.

Today, however, a dispute over an economically unimportant but politically dynamic-laden island, is likely to ruin both Greece and Turkey by eroding them into war.

Since Truman once saved them, perhaps the two countries would now give him absolute power to act as mediator, agreeing in advance to accept the result no matter how he rules. Neither side would be happy, but it would be a lot better than war.

Governors' Gifts

Lyndon Johnson who got pilloried for accepting a hi-fi set from Bobby Baker, should have been at the recent governors' conference.

Looking Backward

TWENTY-FIVE YEARS AGO

William J. Murphy, new assistant Pettis county agent, has assumed his duties replacing Elmer B. Winner, who has been transferred to the agricultural editor's office of the Department of Agriculture at Columbia. Murphy graduated this spring from the M.U. College of Agriculture.

—1939—

Dr. F. M. Fulker, pioneer Sedalian, member of city council, and for 50 years a member of the Missouri Dental Society, was honor guest at a banquet at Hotel Bothwell given by the Sedalia Dental Society. The banquet closed an all day spring clinic attended by 100 dentists from Sedalia and out state. Dr. G. H. Abney, president of the Sedalia Dental Society, presided over the clinic.

FORTY YEARS AGO

The Sanitary board met with the following present: J. D. Donohue, E. P. Baird, E. W. Shultz, Mrs. S. R. Smith, Mrs. H. C. Feuers and the sanitary officer, Charles T. Robinson. The superintendent of the incinerator reported the receipt and burning of 113 loads of trash, 39 dogs, 15 hogs and one chicken. The sanitary officer reported that since the dumping grounds at the plant had been filled he had temporary dumping grounds at 24th street and New York avenue and also on Fifth street between Beacon and Warren. He was instructed to direct all haulers to these places.

moded superiority, highly seasoned with self-satisfaction and complacency.

Although Dr. Kimball was speaking to only 50 governors, economists and business leaders his message has great significance to everyone concerned with Mid-West development. The audience embraces a wider field than government administrators, economists and business leaders; it is highly important to every business man and every person on a payroll in all the population centers, including Sedalia.

When employers and employees express attitudes of self-satisfaction, complacency and superiority, they become insensitive to the value of brainpower which Dr. Kimball urges us to nurture.

Furthermore, in the new scheme of things, Dr. Kimball emphasized that culture and recreation should be thought of as big industry, too. He encouraged the Mid-West to develop those assets which will keep the dollar value of extra leisure in the Mid-West area instead of Hawaii or Rome.

Sedalia is in a section which can appreciate that—a gateway to the Lake of the Ozarks and the prospective Kaysinger dam recreational areas. During further development they invite our alertness to their potentialities in relation to our own.

If the barriers to progress are attitudinal, as Dr. Kimball defines them, let us not be oversensitive to the criticism.

Rather let us apply the maxim: "He who sees the truth let him proclaim it."

GHS

Dawn of Space Age Places Spotlight On Astronomers

By RALPH DIGHTON
LOS ANGELES (AP) — You have probably never met one. They're nocturnal, mostly, and dwell on mountain tops in silvery domes that open only at night.

But they do come down into the cities occasionally, to greet their wives, kiss their kids and pick up fresh supplies.

You could, conceivably, bump into one.

If you do and his clothes look a little rumpled, it's probably because they've been on him all night, neglected while he gazed at sights in time and space that only his kind can see.

If you talk to him and his words have little meaning to you it's because he thinks in a

polyglot jargon of technical terms invented to convey ideas beyond the ken of ordinary mortals.

If he seems like he's from another world — it's because that is what he deals with most of the time: Other worlds.

But treasure the meeting — you've just met a new kind of national hero.

He's an astronomer.

The blazing dawn of the space age has thrown a sudden light of public recognition on this savior of the night.

Once he wore black robes and peaked cap, and ordinary folk thought he could tell the future from the stars.

When it became a national goal to rocket humans into the hostile environment of the moon and planets, only the astronomer could plot the trajectories and guess what the explorers would encounter on their arrival.

Before the space age opened with the launching of man-made satellites in 1957, the biggest single sum of money astronomers had ever been given to spend was \$6 million in private funds — the cost of the 200-inch telescope on Palomar Mountain in Southern California.

Since 1957, some \$50 million in government money has been granted by the National Science Foundation to Kitt Peak National Observatory at Tucson, Ariz., and the National Radio Astronomy Observatory at Green Bank, W.Va.

Even greater expenditures are planned for a new astronomical center being developed by five European nations and this country on the peaks of northern Chile.

A few years ago discovery that the atmosphere of Mars was even thinner than supposed would have rated attention only in scientific journals. Today it wins headlines in newspapers all over the world — because it means more millions than planned must be spent learning how to soft-land instruments and men safely on that most earth-like of planets.

When the huge telescope on Palomar Mountain 100 miles south of Los Angeles was opened to public view in 1948, nonprofessional visitors were rare. Last year more than 15,000 had a glimpse through the giant glass eye of light from objects trillions of miles away.

In 1957, the nation's universities counted 168 graduates in astronomy. By last year the number

had risen to 524 and hundreds more were rejected for lack of facilities.

The star-gazer's formal training lasts as long as a physician's. Twenty years or more of study pass before he wins his doctorate.

The astronomer today must be a master of mathematics and physics.

He must also know geology and chemistry, so he can understand the make-up of other planets; biology and botany; electronics and engineering; the

new science of nuclear energy, because the sun and other stars are hydrogen bombs in endless explosion; four to six foreign languages; and public affairs, because today he spends a great deal of public money and consequently is involved in politics.

The astronomer today must be a master of mathematics and physics.

He must also know geology and chemistry, so he can understand the make-up of other planets; biology and botany; electronics and engineering; the

new science of nuclear energy, because the sun and other stars are hydrogen bombs in endless explosion; four to six foreign languages; and public affairs, because today he spends a great deal of public money and consequently is involved in politics.

Chartists Eye Market For Season Rally

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — Stock market chartists are eying every price flurry for signs of the traditional summer rally.

Steel production is sliding fast toward the still more traditional July doldrums.

Many factories are preparing for the newer but growing tradition of a vacation shutdown of two or three weeks.

The auto industry is preparing for the summer model changeover.

Hot weather sport and recreational items are selling fast.

Tourists jam New York streets and scramble for hotel rooms. Summer camps shore themselves up for the annual rush of school-free youngsters. Highways to beaches and mountains are even more jammed than ever.

Summer is coming in just like always — almost. There are some differences this time.

Stock prices already are around record highs — if you measure them by the popular averages. But many shares are far below their highs. It's the blue chip type, favored by the popular index and by many institutional buyers, that has attracted most buying interest this year.

Steel's output slide — already some 6.5 per cent from its year's high of late May — seems sure to go on into July. But this summer the steelmen think the dip, however steep it seems now, may prove to be comparatively shallow and short-lived. Optimism, born of a good cushion of orders, is strong for a big fall upturn.

The factory shutdowns for vacations are taking a new look also. The trend toward longer vacations continues, and so does the practice of closing down so that everyone takes them all at once. The total of idle production days may be greater. But because of the business upswing some companies are trying divided vacations — a week in July, another at Christmas, or at some date when the backlog of unfilled orders is less impressive.

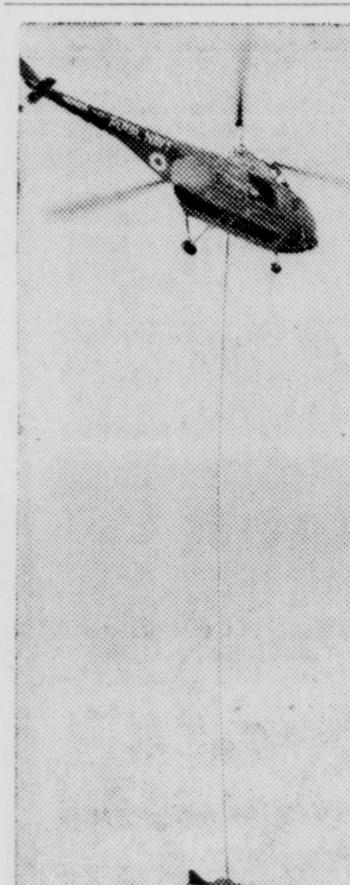

The auto changeovers this summer are complicated by reports that models revisions will be more extensive than in many years. But even more unsettling are the labor negotiations soon to start. Because of this, production right now is probably higher than it would otherwise be, and the chances of a strike cloud the late summer prospects.

Huge Centrifuge Will Simulate Space Trips

DOWNEY, Calif. (AP) — Scientists here are building what they call the world's largest centrifuge — a machine so big it can take four men on 30-day simulated space flights.

Two capsules mounted at any point on the 150-foot rotating arm each will carry two men, equipment and provisions sufficient for a month's spin, scientists say.

Researchers hope that studying human reactions to the prolonged rotation will give them clues on how man can live and work in space.

PLAYING AIRPLANES — Britain is playing with model airplanes, but with a method to its madness. Here a Royal Navy helicopter hoists a wooden model of the Concord supersonic airliner during tests in Bedford. The model was released and its behavior in flight was transmitted to the ground by a built-in transmitter.

Arabian Horse Films Shown Optimist Club

Dr. A. L. Lowe presented the program at Optimist Club Tuesday noon at Bothwell Hotel, which was a colorful film showing the beauty and versatility of Arabian horses.

These horses, the film brought out, are animated and well balanced, so gentle they make wonderful horses for children. They have high intelligence and will follow their master night and day.

The film showed them on ranches where they are used by cowboys in parades and horse shows in which their gracefulness is especially noted. This horse was brought to this country from Arabia and in the

horse show the riders wear exquisite Arabian costumes.

Dr. Lowe stated that there was an Arabian Horse Show in Sedalia last year and that there would be another one this year July 18 and 19.

Harry Goldberg, president of the new Southwestern Lions Club, and a guest of R. L. Settles, told the Optimists that the new club of which he is president was sponsoring the Arabian Horse Show this year and had tickets for it.

The meeting was presided over by Ed Mitchell, president, and invocation was given by Rev. Charles Hendrickson. Gerold Cecil led the singing with

Mrs. Lillian Fox Maynard at the piano.

Miss Lucy Ann Laur, public health nurse from the University of Missouri, Columbia who will be here for two months, was a guest of Dr. R. C. Arnold.

The installation banquet will be held the evening of June 30 at Holiday Inn.

Drowns in Creek

HEMATITE, Mo. (AP) — Donna Marie Ward, 14, of Bluff City, Mo., drowned Tuesday in Joachim Creek near Hematite. She had been swimming while on a family picnic.

Annual George School Reunion Held in Calhoun

George School Annual Homecoming was held June 21 at Calhoun gymnasium-auditorium.

A basket dinner was served at noon on the lawn of the Curtis Montsinger home, adjacent to the auditorium, with the Rev. Ervin Benz asking the blessing.

Former teachers Mildred Settles Jones, Clinton, John Ragsland, Cole Camp, Marie Weller Kovachoff, Kansas City, and Will Johnson, Topeka, Kan., were present to visit former pupils and friends arriving from Clinton, Calhoun, Windsor, Independence, Warrensburg, Kansas City, Cole Camp

and Topeka, Kan.

Mr. and Mrs. G. W. Russell who operated the Thrush Store many years were present from Altus, Okla., both taking part on the program. Mrs. Russell's sister, Mrs. Allie Gillespie Parker, Lansing, Mich., was also present.

Robert Overy, Sedalia, took movies.

Gene Young played, at the organ, "How Great Thou Art" and "Sewanee River," Ed Brummet singing refrain. Young

and G. W. Russell.

Ludwig Mond discovered the carbonyl process for refinishing nickel in 1889. This process still is used in the United Kingdom.
